CONTENTS
Volume 39

No. 1

Research Letters

Enhancement of mitochondrial tyrosine kinase activity following viral transformation
G. Piedimonte, L. Silvotti, A.F. Borghetti and L. Montagnier (Parma, Italy and Paris, France) 1 – 8

Rapid development of hepatocellular neoplasms in aging male C3H/HeNCr mice given to phenobarbital
J.M. Ward, P. Lynch and C. Riggs 9 – 18

Metabolism of benz[*j*]aceanthrylene (cholanthrylene) and benz[*l*]aceanthrylene by induced rat liver S9
S. Nesnow, R.E. Easterling, S. Ellis, R. Watts and J. Ross (Research Triangle Park, NC) 19 – 27

Effects of 3-aminobenzamide on the induction of γ-glutamyl-transpeptidase-positive foci by various chemicals in rat liver
A. Denda, M. Tsutsumi, Y. Yokose, H. Eimoto and Y. Konishi (Kashihara, Japan) 29 – 36

The occurrence of preformed *N*-nitroso compounds in food samples from a higher risk area of esophageal cancer in Kashmir, India
M. Siddiqi, A.R. Tricker and R. Preussmann (Srinagar, India and Heidelberg, F.R.G.) 37 – 43

Interactions between 7-hydroxymethotrexate and folinic acid in Raji cells in vitro
B. Payet, I. Fabre, G. Fabre and J.-P. Cano (Marseille, France) 45 – 58

Induction of liver tumors in male Wistar rats by feeding polychlorinated biphenyls (Arocolor 1260)
C. Vaman Rao and A. Savitri Banerji (Bombay, India) 59 – 67

Induction of beta-glucuronidase activity during dimethylhydrazine carcinogenesis and additive effects of cholic acid and indole
Y. Sun and Y. Li (Hangchou, The People's Republic of China) 69 – 76

Induction of ornithine decarboxylase and histidine decarboxylase activities in rat colon mucosa after application of 12-*o*-tetradecanoylphorbol-13-acetate (TPA), sodium deoxycholate and indole
Y. Sun and Y. Li (Hangchou, The People's Republic of China) 77 – 84

Effect of plant flavonoids on microsome catalyzed reactions of aflatoxin B_1 leading to activation and DNA adduct formation
R.K. Bhattacharya and P.F. Firozi (Bombay, India) 85 – 91

Clastogenic and cytotoxic effects of spermine oxidation products in mouse lymphoma L5178Y cells
E. Bożyk and O. Roseik (Warsaw, Poland) 93 – 99

Nasal tumours in rats after short-term exposure to a cytotoxic concentration of formaldehyde
V.J. Feron, J.P. Bruyntjes, R.A. Woutersen, H.R. Immel and L.M. Appleman (Zeist, Netherlands) 101 – 111

Protein kinase activity, growth and differentiation of murine erythroleukemia cells
R.A. Flickinger (Buffalo, NY) 113 – 117

Announcement 119

No. 2

Research Letters

Difluoro-phenyl-ethyl(-4-aminopropylamidinohydrazone): an irreversible inhibitor for both ornithine an *S*-adenosylmethionine decarboxylases and its effect on human lymphoid leukemia Molt 4B cells
H. Hibasami, M. Sakurai, S. Maekawa, T. Murata and K. Nakashima (Mie, Japan) 121–127

Effect of alpha tocopheryl succinate on cyclic AMP-dependent protein kinase activity in murine B-16 melanoma cells in culture
S. Torelli, F. Masoudi and K.N. Prasad (Denver, CO) 129–136

Effect of combined treatment of anti-inflammatory drug and mannoheptulose on the production of tumour necrosis factor and endotoxin shock in mice
K.P. Fung, C.P. Cheng, L.U. Luey, S.C. Loh, Y.M. Choy and C.Y. Lee (Shatin, Hong Kong) 137–143

Effect of ketotifen on adriamycin toxicity: role of histamine
F.B. Klugmann, G. Decorti, L. Candussio, F. Mallardi, V. Grill, M. Zweyer and L. Baldini (Udine, Italy) 145–152

RNA-lipid complexes released from the plasma membrane of human colon carcinoma cells
A. Rosi, L. Guidoni, A.M. Luciani, G. Mariutti and V. Viti (Rome, Italy) 153–160

Characterization and reactivity of a monoclonal antibody that recognises a 76 kilodalton human colon tumor antigen
K. Huang, J.P. Moosic, C.W. Taylor, M. Lane and L.C. Yeoman (Houston, TX) 161–177

Ultrastructural localization of cisplatin in Ehrlich ascites tumor cells
V. Rodilla, J. Pertusa and J.A. Pellicer (Valencia, Spain) 179–183

DNA methylation levels in acute human leukemia
G.P. Pfeifer, S. Steigwerwald, T.L.J. Boehm and D. Drahovsky (Frankfurt, F.R.G.) 185–192

Interactions between porphyrins and mitochondrial benzodiazepine receptors
D. Kessel (Detroit, MI) 193–198

Protective effect of dietary brussels sprouts against mammary carcinogenesis in Sprague–Dawley rats
G.S. Stoewsand, J.L. Anderson and L. Munson (New York, NY) 199–207

Transcriptional activation of the glutathione S-transferase π gene in human ureteric and bladder carcinomas
S. McQuaid, A. O'Brien, M.R. Butler and P. Humphries (Dublin, Ireland) 209–216

Combined effects of bromovinyldeoxyuridine and fractionated or continuous administration of 5-fluorouracil in P388 leukemia-bearing mice
H.J. Keizer, R. Pauwels, W. Landuyt, J. Balzarini, E. van der Schueren and E. De Clercq (Leuven, Belgium) 217–223

Announcements 225–226

No. 3

Research Letters

Vaginal tumors in mice from methylcholanthrene and prenatal exposure to diethylstilbestrol
B.E. Walker (East Lansing, MI) 227–231

Effect of dietary phenobarbital on spontaneous hepatic tumorigenesis in germfree C3H/He male mice
T. Mizutani and T. Mitsuoka (Saitama and Tokyo, Japan) 233–237

Feasibility of using lower doses of chemopreventive agents in a combination regimen for cancer protection
C. Ip (Buffalo, NY) 239–246
Screening of edible plants against possible anti-tumor promoting activity
K. Koshimizu, H. Ohigashi, H. Tokuda, A. Kondo and K. Yamaguchi (Kyoto and Kagawa, Japan) 247–257
Formation of *N*-nitroso compounds under simulated gastric conditions from Kashmir foodstuffs
M. Siddiqi, A.R. Tricker and R. Preussmann (Srinagar, India and Heidelberg, F.R.G.) 259–265
A comparison of adrenergic receptors of rat ascites hepatoma AH130 cells with those of normal rat hepatocytes
F. Sanae, K.-I. Miyamoto and R. Koshiura (Kanazawa, Japan) 267–273
Interactions of BCNU, low pH, glucose and hyperthermia in cultured RIF cells
B.A. Neilan, T.L. Jenkins, K.J. Henle, A.J. Moss and W.A. Nagle (Little Rock, AR) 275–280
Induction of hepatic DNA single strand breaks in rats by 2,3,7,8-tetrachlorodibenzo-*p*-dioxin (TCDD)
Z.Z. Wahba, T.A. Lawson and S.J. Stohs (Omaha, NE) 281–286
Mutagenic activities of fecapentaene derivatives in the Ames/*Salmonella* test system
J.H. Peters, E.S. Riccio, K.R. Stewart and E.J. Reist (Menlo Park, CA) 287–296
An abnormal expression of a tumor-activated multigenic set in cells from cancer prone patients with inherited Fanconi's anemia (FA) and retinoblastoma (Rb)
N. Hanania, C. Diatloff-Zito and D. Schaool (Villejuif and Paris, France) 297–304
Effect of recombinant gamma interferon on hepatocellular carcinoma cell lines
E.C. Ren, L.Y.M. Wong and S.H. Chan (Singapore) 305–310
Polyamines in relation to human breast, rectal and squamous cell carcinoma
R. Chanda and A.K. Ganguly (Calcutta, India) 311–318
DNA (cytosine) methylation in murine and human tumor cell lines treated with *S*-adenosylhomocysteine hydrolase inhibitors
R.G. Liteplo (Ottawa, Canada) 319–327
The effects of tumor promoters on HTLV-1 expression in a low-virus producer and a non-virus producer cell line
L.J. Carter and J.R. Blakeslee, Jr. (Columbus, OH) 329–338
Pancreatobiliary and biliary control of fecal β-glucuronidase activity in the rat
M.R. Head, H.E. Fukumoto and G.W. Chang (Berkeley, CA) 339–344
